

# Project Visibility

Project Visibility is a training to help service providers become more informed, sensitive to, and supportive of the needs of Lesbian, Gay, Bisexual, and Transgender older adults and their families.

The vast majority of LGBTQ+ older adults have lived through discrimination, social stigma, and the effects of prejudice, both past and present. For some, this historical trauma has disrupted their lives and made them mistrustful of health care professionals and service providers.

PCOA invites you to attend this outstanding and award-winning training model to learn how to best serve our aging LGBTQ+ older adult community.
